

2016-2017 School Year Professional Development

Dear Melrose Public Schools Staff,

Welcome to the Melrose Public Schools 2016-2017 Professional Development schedule. We are excited by the offerings we have included for the upcoming school year.

Included in this document are titles, descriptions, and dates of this year's professional development offerings. Register via Aspen using the directions at the end of this document. Locations for all offerings will be at the middle or high school campus unless otherwise indicated.

The offerings presented also include opportunities for teachers to meet requirements for PDPs in the servicing of students with disabilities and those who are English language learners.

In addition, staff are encouraged to submit their own proposals for professional development. See the [posted forms and information](#).

If you have any concerns or questions about any of the offerings please contact me at madams@melroseschools.com. I look forward to another great school year.

Sincerely,

Margaret Adams
Assistant Superintendent for Teaching and Learning
Melrose Public Schools

Universal Design for Learning K-12

Purpose: We know from experience and neuroscience that individuals learn in varied ways. Universal Design for Learning (UDL) provides educators with practical strategies and techniques to ensure that all learners can meet high expectations. In this introductory session, participants learn the research basis for UDL, practical applications of UDL to lesson design, and helpful technology tools that support flexible, inclusive instruction.

These sessions will support educators in meeting the requirement for PDPs in meeting the needs of diverse learners including students with disabilities.

Date	Description
Tuesday October 11th	Setting the Stage for Universal Design for Learning -Participants will gather an understanding of the purpose and theory behind UDL and begin to consider its impact on the classroom.
November 22nd	General Overview of the Three Principles -We will dig deeper into the three principles of UDL, look at examples in action in classrooms and determine next steps.
